

1 the first section of Section 3 would give the General  
2 Assembly, if in its wisdom the day should come that it  
3 wanted to have former citizens voting in Maryland elec-  
4 tions, I think the first section that they should estab-  
5 lish lesser residence requirements might be enough to be  
6 relied on.

7 I don't think we should clutter up the Consti-  
8 tution with what might be a fine social and political  
9 theory, but which would be completely unenforceable unless  
10 the nation established a nationwide computer system.

11 I see no place for it in the Constitution. I  
12 hope you would support Delegate Hanson's amendment.

13 THE CHAIRMAN: Delegate Koss, before we vote on  
14 this, may the Chair inquire whether the second sentence,  
15 the one that is subject to this amendment, is intended to  
16 apply only with respect to voting on president and vice-  
17 president of the United States?

18 DELEGATE CHABOT: Yes, sir.

19 THE CHAIRMAN: Delegate Penniman, would you please  
20 note it.

21 DELEGATE PENNIMAN: Yes.
